

Config CIMNE Address Book in Outlook 2010

The CIMNE address book is only accessible if you're in the CIMNE computer network.

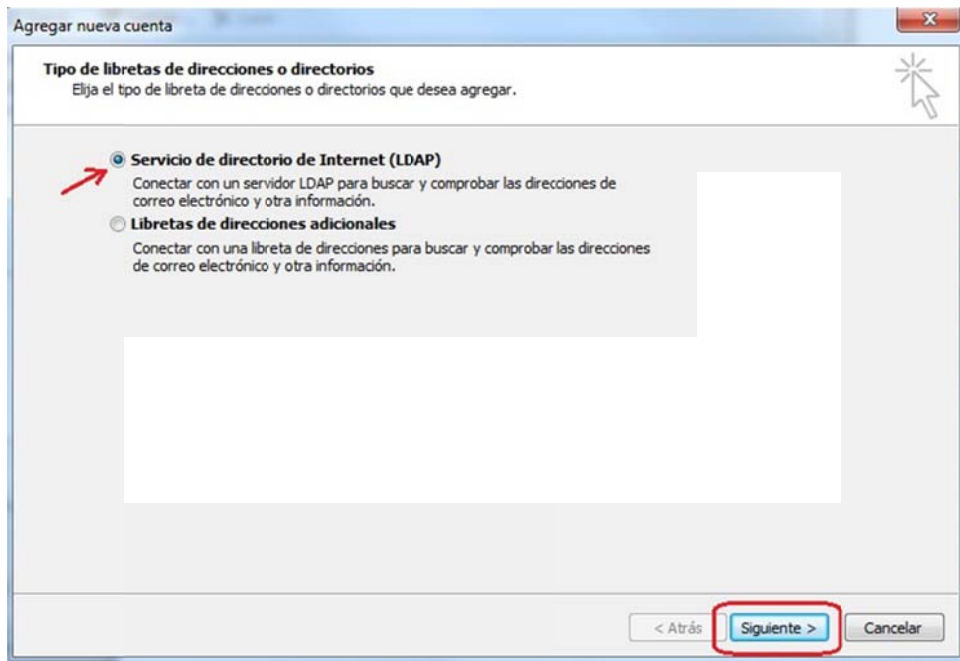

1. Open Outlook and go to *File > Info > Account Settings*

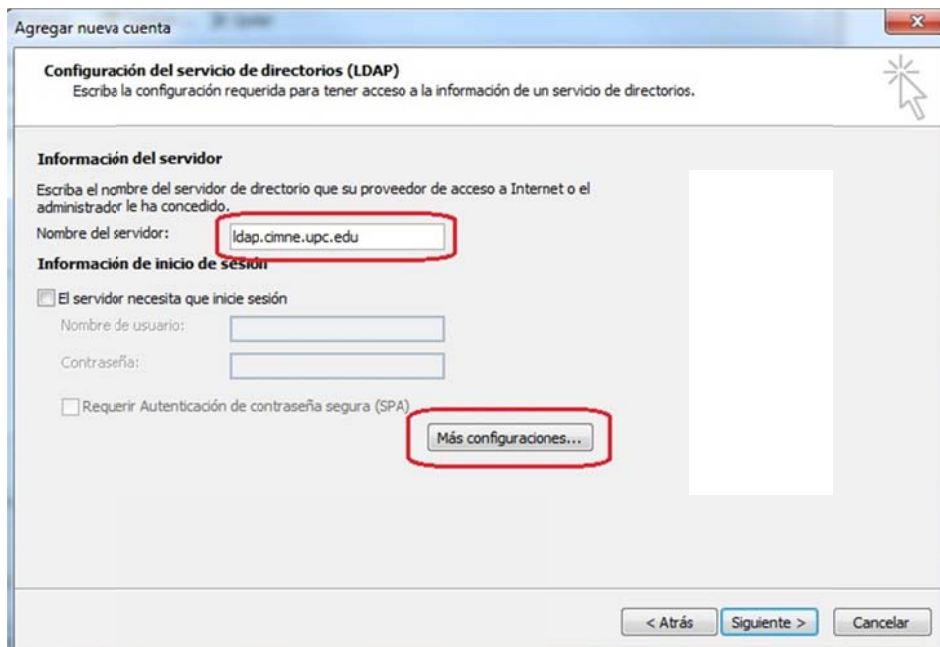

2. Go to the *Address Book* tab and click *New...*

3. Choose *Internet Directory Service (LDAP)* and click *Next*

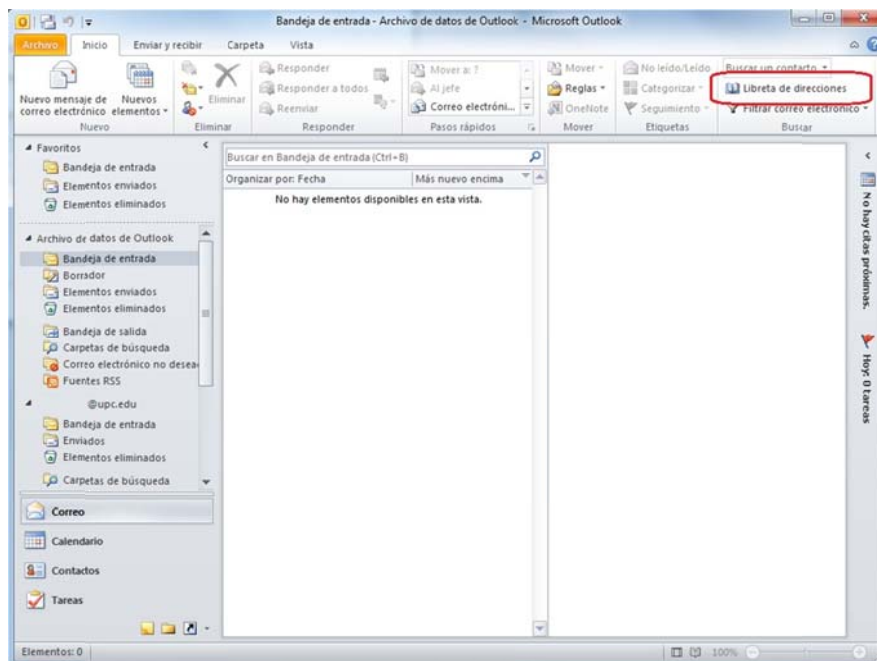

4. In server name type *ldap.cimne.upc.edu* and click *More Settings...*

5. Go to *Search* tab, *Search base* section, check *Custom* and insert value *dc=rmee-cimne,dc=cimne,dc=upc,dc=edu*

6. Click ok and restart Outlook.
7. Alternatively, if you have more than one address book, you can choose the priority that should be each. Go to *Address Book*

8. Go to *Tools > Options*, and choose your priority.
