

# Config UPC Address Book in Thunderbird

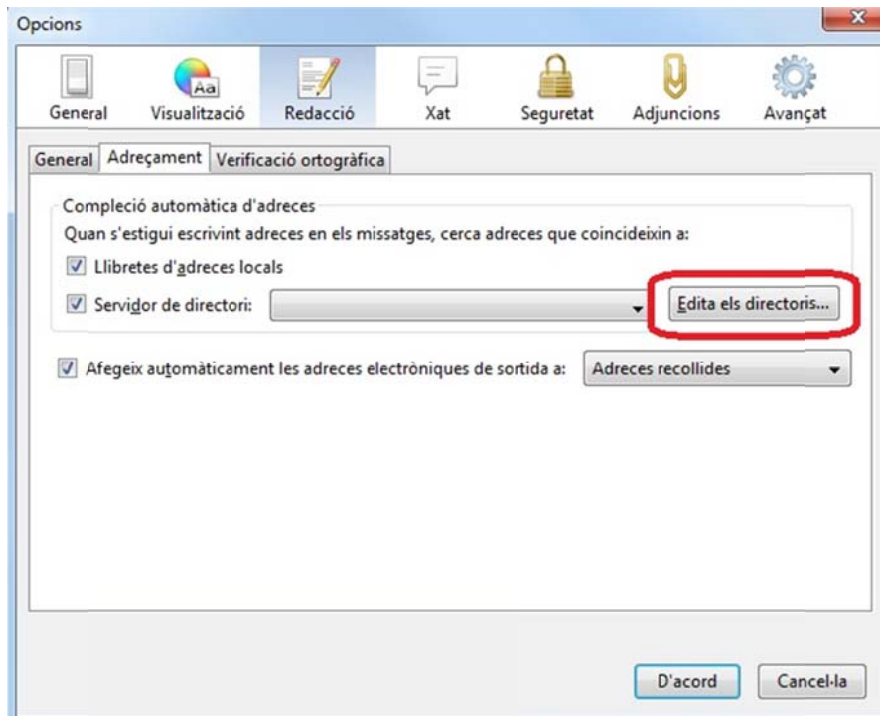

1. Open Thunderbird and go to *Tools > Address Book*

2. In the new screen, go to *Tools > Options*

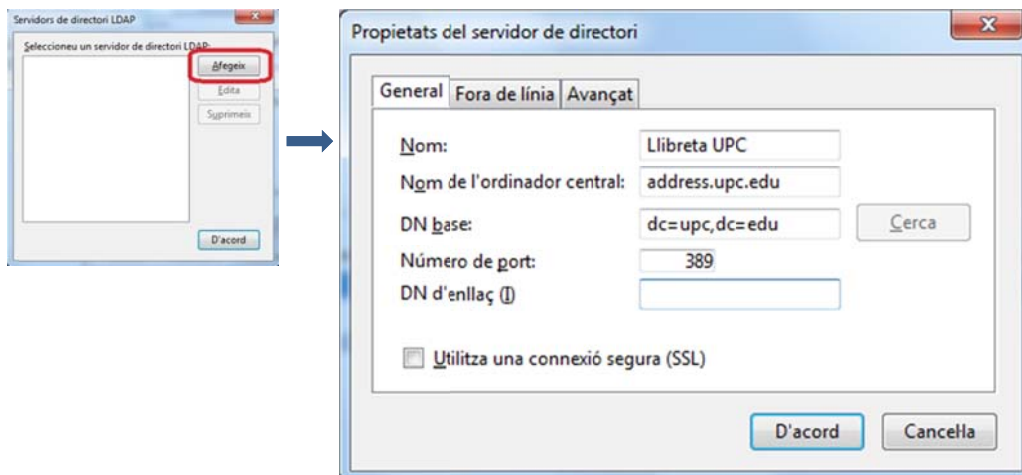

- From *Addressing* tab, check *Directory Server* and click on *Edit Directories...*

- Click on *Add* and type this values:

Name: UPC Address Book  
Hostname: address.upc.edu  
Base DN: dc=upc,dc=edu

5. Click Ok, and in the screen of 3th step, select the new address book as default.
